BCHPCA Conference 2016: Plans, Partnerships, Promotions and Practicalities

The BCHPCA conference was held at the Radisson this year. This two day event was a huge success, attended by many hospice societies throughout the province. There were many break-out sessions, and sessions for all. Physician Assisted Dying was one session for all. We know now that the new bill did not pass senate. At the time of the conference, this was an unknown.

Some of the smaller sessions included Hospice research being supported by BC Center for Palliative Care. The focus of these research commitments had the common thread of community development, compassionate communities, and the role of the volunteer. Exciting stuff!

AGM May 30, 2016

The THS held its annual AGM at the end of May this year. It was well attended with 3 board members, 3 new board members, one potential new board member, and 3 hospice volunteers. The meeting was efficient with the THS currently sitting in a good fiscal position. The election of Directors was deferred till June 27 at the THS at noon. Wanda Fairless and Pat McGinley are arranging food for all visiting and board volunteers that attend this meeting. Everyone is welcomed.

What's new at THS?

A new computer that is linked to the older computer! Thanks to TCSI Consulting for their expertise and attention to detail in advising on what would best suit the needs of THS.

Advanced Care Planning

The Terrace Hospice Society and the BC Centre for Palliative Care have partnered to present public workshops for Advance Care Planning. Sue Skeates and Diana Wood from THS have taken the training to facilitate these sessions and plan to present 12 workshops over the next year.

Advance Care Planning is a process to help you think about, discuss, and ideally record your wishes for healthcare if for some reason you are unable to speak for yourself. This process can guide others in making healthcare decisions for you based on your desires and beliefs. This takes the guesswork out of the decision making process for your family.

These free public informational workshops will explain how to make an ACP and also why it is so important to have one. This information, along with resource materials, will guide the participants in making their own individual Advance Care Plan. This simple approach can bring peace of mind as others will know what your wishes are even if you are not well enough to speak for yourself.

The Heart of Hospice

The heart of the Terrace Hospice is the many volunteers who work diligently at the jobs that need to get done. Whether it is working directly with the clients, offering grief support, working in the office, helping at our fund raising events or just being there when called upon to do the work of hospice, we couldn't do it without you. Many thanks to all volunteers.

We look forward to welcoming a new group of volunteers in the near future.

Our belief in hospice and all it stands for, keeps us connected and dedicated through the highs and lows of our lives as volunteers.

Keep up the great work. We couldn't do it without you.

Volunteers, God Bless Them

Many will be shocked to find when the day of judgment nears,

That there's a special place in heaven set aside for volunteers.

Furnished with big comfy recliner couches and foot-stool,

Where there's no committee chairman, no group leaders or car pools.

No eager team that needs a coach, no bazaar and bake sale.

There will be nothing to staple not one thing to fold or mail.

Telephone lists will be outlawed but a finger snap will bring

Cool drinks and gourmet dinners and treats fit for a king.

You ask, "Who'll serve these privileged few and work for all they're worth?"

Why all those who reaped the benefits and not once volunteered on Earth.

Thanks to the mystery person who left a bouquet of flowers in the office, the night of June, 27th. It was a delightful surprise to walk into the office and see the colorful display from a secret admirer.
