

Who would speak for you

If you couldn't speak for yourself?

Most of us hope to die peacefully, able to communicate with loved ones until the very end. It doesn't always happen that way. Making your wishes known *now* helps your caregivers make the right decisions if you can't speak for yourself. Speak up and start a conversation today about end of life care.

This workshop is spread over two days to give you time to reflect and decide on the care that is right for you.

Join us November 10th and 17th to learn the steps and to walk away with a fully completed ACP.

We also offer private in home consultations for those who don't use the internet. Call Diana to set up an appointment.
