

Informed Decision Making: Get help from your

Benefits

Risks

Alternatives

Intuition

Next Steps

What is the decision I need to make?

How much time do I have to make this decision?

Who is involved in making this decision?

What are my values that affect this decision?

enefits

How might this benefit me?
(possible/probable outcomes)

How might this benefit my caregiver?
(if applicable)

isks

How might this pose a risk to me?
(possible/probable risks)

How might this pose a risk to my caregiver?
(if applicable)

Alternatives

What are my options for the short term and long term?
(alternative treatments, no treatment, other ideas?)

Intuition

What do I feel and think about these options?

Next steps

Examples:

I need to talk to my family.

I need time to think my decision through.

I want more information.

I would like to wait on treatment.

I want a second opinion.

I would like to...???
